

## FASHION RUNS TO FRILLS AND RUFFLES

BY BETTY BROWN

Ruffles, tiers of ruffles, adorn summer frocks of voile, organdy or lawn, so I gather from the little private fashion shows the great modistes are holding these days to launch the midsummer modes.

A model you will see often before the summer wanes is this much ruf-

fled frock of natter blue voile—it's from the studio of Mme. Grosfield of the Fashion Art League of America, that sponsor of smart fashions.

Four deep ruffles give the skirt the quaint 1830 effect, the short bolero jacket carries out the suggestion of quaintness, and the flowing sleeve is another old fashion in modern form.
